**Comments for Public Posting:** A Rodeo is a despicable animal cruelty which still continues regardless. There needs to be a ban not only on the Rodeo itself but for all the inhumane tools of torment - such as electric prods, flank straps and spurs and ongoing animal abuse!

**Comments for Public Posting:** I would like the opportunity to comment on this subject I have been fighting to save my way of life ever since the animal rights activist have started posting false adds about animal cruelty at rodeos in the United States We just went threw this in our own country Alameda County to be exact the supervisors had the foresight to get their own information do their own research and form their own opinions with that said the animal rights folks, false ads and claims were denied I can only hope you folks will take the time to listen to the professionals on this subject, and do the same and don't be sucked in to false ads and false information Thank you Abbie batteate

**Comments for Public Posting:** Rodeo has been around in California longer than it has been a state. It is the only pure sport left in America. The rodeo animals are treated way better than most of the children in Los Angeles area public schools. The city Council should reconsider there decision and go to a few rodeos in California and actually get to know the people. They would see that rodeo brings all these great people together.
