**Comments for Public Posting:** I do hope rodeos get banned. We don't need more animals getting hurt. For example, coleaderos not only is the horse getting abused by its owner, but the calf being pulled by tail is too. I've seen calf's die during these shows because they're stepped on or receiving great impact to the floor multiple times. I suggest horse riders watch @ davidalonso.domanatural on TikTok so that people learn how to horse is suffering.
