Please don't ban professional rodeo. I am a country girl and have attended rodeo all my life and watch it on tv all the time. This is a sport just like basketball. It teaches young Americans responsibility and respect.

I support rodeo all over the United States and any western sports events and have traveled great distances and spent countless hours and money to participate in various events. If you should make the error to ban western sport events you will lose out on major money revenues in your area. Don't make that mistake
