Regarding the cancellation of Rodeo's

If we cancel the Rodeo than WE SHOULD CANCEL ALL SPORTS! The reason injuries to humans. There are way more injuries in football and ice hockey to people in sports than there are to animals in rodeos. Oh and the big one Automobiles, lets cancel cars because of all the injuries and deaths in them.

I guess animals are more important than people.

I think you are using the animals for another excuse unknown to us.

P.S. Did you know bull riding originated in Mexico? It is called Charreada.
