Comments for Public Posting: Now that the council members are relying on the report from housing department , it has been conveniently delayed . How is this even fair ?! How is it ok to continue to punish the small landlords with absolutely no rights to their own properties ? How long does this injustice prevail towards us ? You are all elected council members who are supposed to look at both sides of the equation and conveniently hide behind reports and data when it's easy to dodge things. Whoever screams the loudest gets the floor and all of us who are hard working and trying to live our lives and abide by the law are the ones that get beaten up. Now it makes us all wonder that these reports could even be manipulated to serve the ones at the cost of rest of us . Criminals in LA have more rights than small property owners . The council members abs mayors office have definitely made it very clear with the consistent rigid policies against us . Will council member pay our past due rents and bills?
