ORDINANCE NO. __________________

An ordinance adding Article 5 to Chapter XIX of the Los Angeles Municipal Code to prohibit the distribution and sale of expanded polystyrene products commonly referred to under the trade name Styrofoam™.

WHEREAS, expanded polystyrene is not biodegradable, is not economically recyclable, and breaks into micro-pieces in the environment;

WHEREAS, styrene, the main component of polystyrene, has been classified as a possible human carcinogen;

WHEREAS, polystyrene chemicals can leach into food stored in expanded polystyrene containers;

WHEREAS, cost-effective, reusable, and compostable foodware products are readily available for most food-service applications and are less toxic and more environmentally friendly than expanded polystyrene;

WHEREAS, products made of expanded polystyrene foam are difficult to recycle and often end up as litter in our open spaces, rivers, and oceans, thereafter breaking down into small pieces that harm wildlife and aquatic animals who may consume it;

WHEREAS, the City of Los Angeles's goals include addressing environmental concerns by reducing the amount of waste entering our oceans or impacting our communities; and

WHEREAS, reducing waste of expanded polystyrene products fits well into the City's goals to reduce waste, increase energy efficiency, promote equity and environmental justice, address the impacts of climate change, and advance a just transition toward more circular, equitable, and regenerative economies.
