RE: Council File: 21-0113: Project Roomkey Expansion / Interim Non-Congregate Shelters / Homeless Housing / Master Lease / Hotels, Motels, and Vacant Apartment Units / Authority to Commandeer / Public Health Emergency

On March 2, 2021, in a Brown Act noticed public meeting was held with a quorum of 12 board members present and that by a vote of 12 yes, 0 no, the Eagle Rock Neighborhood Council (ERNC) adopted the following Community Impact Statement concerning CF 21-0113.

The Eagle Rock Neighborhood Council (ERNC) is in support of the motion to expand and renew Project Roomkey with some recommendations.

The country as a whole, particularly Los Angeles and other cities with large populations of unhoused people, has been struggling to provide housing and assistance for people experiencing homelessness during the COVID-19 crisis. Project Roomkey aimed to provide safe, service-enriched interim housing to this vulnerable population through master-leasing vacant hotels and motels, but it lacked the funding and the authority to be implemented effectively, and ultimately fell short on providing enough shelter for unhoused individuals.

The [motion](#) by Council Members Bonin and Raman is a necessary step to help provide long overdue assistance to our unhoused population by tapping into FEMA funding. President Biden issued an executive action directing FEMA to reimburse cities for 100% of what they spend on non-congregate shelters through September 2021, including back-pay for expenditures made prior to this executive action. This timeline would give the city plenty of time to develop and open more permanent solutions, including permanent Interim Housing and Permanent Supportive Housing sites secured through Project Homekey, while still providing shelter in the interim.

One major pitfall of Project Roomkey was a lack of buy-in from hotel owners who were hesitant to house unhoused people in their space, resulting in a significant underutilization of available hotel rooms for emergency shelter. We need to find ways to provide immediate relief to our unhoused

citizens, and we have some additional recommendations as outlined below;

- The Project Roomkey expansion should include additional funding for case management systems and staffing for service providers, so that every person who is enrolled in the program can work on not only a path to permanent housing but also access to mental and physical healthcare, ensuring that residents of Project Roomkey sites are exited to permanent housing and not turned back out onto the street;
- The Project Roomkey expansion should account for funding and staffing for enhanced outreach services to identify and build trust with unsheltered individuals and connect them with Project Roomkey sites;

Sincerely,

Jesse Saucedo

Jesse Saucedo, President
Eagle Rock Neighborhood Council (ERNC)
