Re: Council File: 21-0113: Project Roomkey Expansion / Interim Non-Congregate Shelters / Homeless Housing / Master Lease / Hotels, Motels, and Vacant Apartment Units / Authority to Commandeer / Public Health Emergency

The Wilshire Center Koreatown Neighborhood Council (WCKNC) is in support of the motion to expand and renew Project Roomkey with some recommendations.

The country as a whole, particularly Los Angeles and other cities with large populations of unhoused people, has been struggling to provide housing and assistance for people experiencing homelessness during the COVID-19 crisis. Project Roomkey aimed to provide safe, service-enriched interim housing to this vulnerable population through master-leasing vacant hotels and motels, but it lacked the funding and the authority to be implemented effectively, and ultimately fell short on providing enough shelter for unhoused individuals.

The [motion](#) by Council Members Bonin and Raman is a necessary step to help provide long overdue assistance to our unhoused population by tapping into FEMA funding. President Biden issued an executive action directing FEMA to reimburse cities for 100% of what they spend on non-congregate shelters through September 2021, including back-pay for expenditures made prior to this executive action. This timeline would give the city plenty of time to develop and open more permanent solutions, including permanent Interim Housing and Permanent Supportive Housing sites secured through Project Homekey, while still providing shelter in the interim.

One major pitfall of Project Roomkey was a lack of buy-in from hotel owners who were hesitant to house unhoused people in their space, resulting in a significant underutilization of available hotel rooms for emergency shelter. However, the Los Angeles City Attorney has [reviewed](#) the legality of commandeering hotels and motels for this project and determined that the Mayor's emergency powers grant him the authority to commandeer private property for public use when needed for the protection of life, and to bind the City to pay fair market value to compensate the property owner.

We understand that this is an extreme measure, but we need to find ways to provide immediate relief to our unhoused citizens, and we have some additional

NEIGHBORHOOD COUNCIL**

recommendations as outlined below;

- The Project Roomkey expansion should include additional funding for case management systems and staffing for service providers, so that every person who is enrolled in the program can work on not only a path to permanent housing but also access to mental and physical healthcare, ensuring that residents of Project Roomkey sites are excited to permanent housing and not turned back out onto the street;
- Project Roomkey should not include Care+ sweeps or other tactics that serve to further destabilize and marginalize unsheltered people as they currently stand - instead adopting the motion outlined by Council Members Bonin and Raman in CF-21-0113;
- The Project Roomkey expansion should account for funding and staffing for enhanced outreach services to identify and build trust with unsheltered individuals and connect them with Project Roomkey sites;
- The Project Roomkey expansion should not separate families, partners, pets, or friends;
- The Project Roomkey expansion puts a greater emphasis on consistency of services (like having the same case manager for the duration of a tenant's stay) which will help ensure the success of the program; and
- ADA accommodations are available and offered to those who need them.

WCKNC thanks the city council for its consideration and urges the council to support CF 21-0113 with our recommendations.

Thank you,

/s/ Adriane E. Hoff

President, Wilshire Center Koreatown Neighborhood Council

/s/ Joshua Twisselman

Treasurer, Wilshire Center Koreatown Neighborhood Council
