Item Number:

Summary: The DRNC supports CF 21-0352. NREL's 100% renewable energy study found that achieving 90-100% carbon free energy by 2035 is practical, and identified a set of "no-regrets" investments LADWP should make regardless of which path it takes going forward. LADWP should move quickly to get these projects ready for funding from the President's proposed infrastructure stimulus bill. The DRNC supports efforts that contribute to or exceed this goal, especially motions like this one which prioritize environmental justice communities.
