Item Number:

Summary: The Historic Highland Park Neighborhood Council supports CF 21-0352. National Renewable Energy Laboratory (NREL) 100% renewable energy study found that achieving 90 - 100% carbon-free energy by 2035 is practical under various scenarios, and further identified a set of “no regrets” investments that LADWP should make regardless of which path it takes going forward. LADWP should move quickly to get these initiatives ready for funding from the President’s proposed infrastructure stimulus bill.

COMMUNITY IMPACT STATEMENT

3 June 2021

RE: CIS in Support of CF 21-0352

Dear City Council,

The Historic Highland Park Neighborhood Council supports CF 21-0352. National Renewable Energy Laboratory (NREL) 100% renewable energy study found that achieving 90 - 100% carbon-free energy by 2035 is practical under various scenarios, and further identified a set of “no regrets” investments that LADWP should make regardless of which path it takes going forward. LADWP should move quickly to get these initiatives ready for funding from the President’s proposed infrastructure stimulus bill.

Furthermore, the HHPNC supports efforts that contribute to or exceed this goal, especially through actions which prioritize environmental justice. A prioritization of such community-based energy initiatives – including energy efficiency, smart thermostat programs (demand response), and home retrofits – is needed to promote affordability and advance a reliable, safe, and clean energy system.

The motion was approved by a vote of: 11 Yes, 0 No, [0] Abstention, [0] Absent. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Estrella Sainburg', with a long horizontal stroke extending to the right.

Estrella Sainburg
President
Historic Highland Park Neighborhood Council
