

MOTION

Homelessness is the existential crisis facing the City of Los Angeles. The 2020 LAHSA Point In Time Homeless Count identified over 41,000 individuals who were homeless within the city. Of that, over 7,600 of whom reside in Council District 14 - giving the district more homeless individuals than the cities of San Jose and San Diego.

The large homeless population demands that the city utilize every available resource and free land in order to house homeless individuals. The city has identified a Bureau of Sanitation parcel located at 850 N. Mission Road that is currently used for roll-off bin storage which can be used to provide temporary housing for homeless individuals. The Bureau of Sanitation is willing to provide this site for temporary housing provided that the roll-off bins can be located somewhere else. The city should initiate the process to relocate the roll-off bins and construct temporary homeless housing on the site.

I THEREFORE MOVE that the Bureau of Engineering, in coordination with the City Administrative Officer and Chief Legislative Analyst be instructed to initiate the design process for temporary homeless housing on the Bureau of Sanitation lot located at 850 N. Mission Road.

I FURTHER MOVE that upon completion of construction, priority for all units shall be given to unhoused individuals in Council District 14, starting with the neighborhood of Boyle Heights.

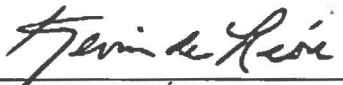

I FURTHER MOVE that the Housing & Community Investment Department be instructed to modify any necessary contracts with the Los Angeles Homeless Services Authority to ensure that homeless individuals in Boyle Heights are given the right of first refusal for the new units to be constructed at the site.

I FURTHER MOVE that \$81,000 in the AB1290 Fund No. 53P, Account No. 281214 (CD 14 Redevelopment Projects - Services) be transferred / appropriated to a new account in the Engineering Special Services Fund No. 682, Department No. 50, entitled "Mission/Myers/Jesse Roundabout Project - AC Paving for LASAN Yard" for the paving and fencing of the Bureau of Sanitation property located at Mission Road and Jesse Street for roll-off bin relocation.

I FURTHER MOVE that upon the successful salvage of the trailers located at 850 N. Mission Road, the estimated \$35,000 in sale proceeds be transferred to the AB1290 Fund No. 53P, Account No. 281214 (CD 14 Redevelopment Projects - Services) to partially reimburse the cost of paving and fencing the Bureau of Sanitation property located at Mission Road and Jesse Street

I FURTHER MOVE that the Bureau of Engineering be requested to issue a non-participating change order in the amount of \$81,000 to Axiom Group (C-137467) for the pavement and fencing of the Bureau of Sanitation property located at Mission Road and Jesse Street for roll-off bin relocation.
