**DISCUSSION**

This donation will fund the purchase of a mobile force option simulator (M-FOS) in support of the Community Interactive Experience Initiative. As a strategic tool for community engagement, the M-FOS can be deployed to communities and events throughout the greater Los Angeles Area and be used to educate the public on police force options. Funds under this grant will be applied towards procuring a FOS system, trailer, trailer outfitting for the FOS system, a truck, and other miscellaneous equipment items. As the Department continues to move forward in 21<sup>st</sup> century policing, this initiative will aid officers in building legitimate trust and mutual understanding with the public we serve.

The Los Angeles Police Foundation is an independent, not-for-profit organization that provides critical resources and vital support to the Los Angeles Police Department. From essential equipment and state-of-the-art technology to specialized training and innovative programs that would otherwise be unfunded, the Foundation provides funding that directly improves public safety, impacts officer readiness, and enhances the quality of life of all members of the community. As the largest source of private support for the LAPD, the Foundation is passionately dedicated to ensuring that Los Angeles remains America's safest major city. Since being established in 1998, the Foundation has invested tens of millions of dollars in hundreds of LAPD initiatives that promote excellence, expand capabilities, strengthen neighborhoods and create opportunities for at-risk youth. These actions are grounded in the beliefs that a safe city is a strong city and that together we can make a difference.

The Honorable Board of Police Commissioners

**TO:** Los Angeles Police Foundation

**FROM:** Department Homeless Coordinator

**SUBJECT:** LOS ANGELES POLICE FOUNDATION GRANT REQUEST –  
RESTRICTED ACCOUNT

**NAME OF GRANT:** COMMUNITY INTERACTIVE EXPERIENCE, MOBILE FORCE  
OPTION SIMULATOR

It is requested that Office of Operations-Public Engagement Section be approved for funds in support of the Community Interactive Experience Initiative. This initiative is a community engagement tool used to assist officers in educating the public on police force options. As a strategic tool, the Community Interactive Experience is a mobile force option simulator that can be deployed to communities and events throughout the greater Los Angeles area.

As the Los Angeles Police Department continues to move forward in the 21<sup>st</sup> century policing, this initiative will aid officers in building legitimate trust and mutual understanding with the public we serve.

Training Bureau's Commanding Officer Commander Marc Reina was provided details of the Mobile Force Option Simulator being requested and he has approved this request. Commander Reina has given approval for the storage and parking of the vehicle and trailer within the Ahmanson Recruit Training Center.

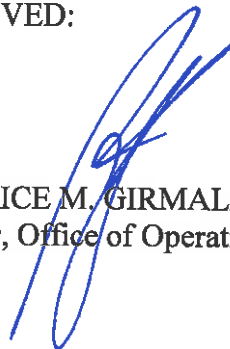

Motor Transport Division's Director of Police Transportation Dirk Aubuchon has approved the proposed vehicle and trailer specifications to be included within the Department's fleet services.

If there are any questions regarding this request, please contact Sergeant II Luqmān Y. Watkins, Public Engagement Section, at (213) 486-8405.

APPROVED:

DONALD R. GEAHAM, JR., Commander  
Department Homeless Coordinator
