Summary: The Arroyo Seco Neighborhood Council supports this motion to provide a valuable service, trash receptacles and collection, to unhoused Angelenos. While housed residents of the city may take garbage collection for granted, disposing of trash is harder for unhoused individuals when there are no bins nearby or when bins are not regularly emptied and cleaned. Without bins, unhoused Angelenos must often pile refuse in areas that may become unsanitary and overfull and may draw illegal dumping from elsewhere as well. Therefore, we support this proposal to make regularly serviced receptacles available at every encampment in Los Angeles. Doing so will improve sanitation, cleanliness, access, and quality of life and reduce the risk of fire and disease for both those who live in encampments and their neighbors, visitors, and passersby. This motion is a humane and necessary immediate response to the much larger structural crisis of homelessness in Los Angeles. We especially applaud the motion's commitment to regularly servicing the receptacles through a formal program. We hope that the result is a program that keeps bins clean and empty, replaces broken ones, and adds new ones at new locations as needed. We also encourage the city to add recycling bins in the same locations.
