Item Number:

Summary: The DRNC supports CF 21-0890 which directs the Department of Water & Power to create a strategic long-term citywide Electric Vehicle Master Plan that includes provisions to maximize federal and state funding for equitable placement of EV infrastructure citywide. The automobile industry is rapidly switching from gasoline to electric cars. Unless the city plans ahead as proposed in CF 21-0890, there is a risk that market forces will leave many residents -- particularly renters and those without onsite parking -- unable to experience the economic and environmental benefits of electric cars
