Summary:

On November 1, 2022, your Committee considered a September 28, 2022 LADOT report relative to mapping all LADOT transportation and safety programs. According to the LADOT, on March 23, 2022, Council directed the LADOT to report with budget and staffing resources needed to conduct a comprehensive transportation safety and equity analysis, including an overlay of collision maps with safety programs to identify under-resourced areas in need of transportation investments. The Council direction listed several safety programs including School Crossing Guards, Great Streets, People Streets, Play Streets, the Night Rider Program, the Safe Passages Program, Safe Routes to School, Safe Routes for Seniors, the Safe School Zones Program, and Slow Streets. The September 28, 2022 LADOT report identifies and describes the City's transportation safety programs and identifies the department responsible for each. It further discusses the budget and staffing resources required to conduct a comprehensive safety and equity analysis of these existing programs. After consideration and having provided an opportunity for public comment, the Committee moved to make no recommendations. This matter is now submitted to Council for its consideration.

Respectfully Submitted,

Transportation Committee
