**COMMUNITY IMPACT STATEMENT**

The Board of the Studio City Neighborhood Council (SCNC) supports Council File 22-0033 to approve \$200,000 from the Innovation Fund (IF) for a Resilient, Solar Powered Street Lights pilot project to: (1) reduce City costs associated with copper wire theft; (2) address sustainability goals; and (3) increase resiliency of the City's street lighting infrastructure. The proposed pilot project would replace at least 50 of the City's street lights with solar powered light fixtures. In regard to historical street light fixtures/structures, the City must exhaust all available options, including theft-proofing, before resorting to solar replacement of the historical fixture/structure.

Randall Fried
 President,
 Studio City Neighborhood Council
