Honorable Members of the City Council

Re: 2022 Urban Areas Security Initiative (UASI) Grant Award (Council File No. 22-0988)

Dear Honorable Members:

Transmitted herewith is a request to:

- Accept \$54,753,330 in U.S. Department of Homeland Security (DHS) Fiscal Year 2022 Urban Areas Security Initiative (FY22 UASI) grant funds on behalf of the Los Angeles/Long Beach Urban Area (LA/LB UA), for a performance period of September 1, 2022 to May 31, 2025;
- Authorize the City of Los Angeles Information Technology Agency (ITA), Police Department (LAPD), Fire Department (LAFD), and Emergency Management Department (EMD) to execute approved projects using these funds;
- Authorize the Mayor's Office of Public Safety to execute subrecipient contracts, subject to the approval of the City Attorney as to form, for the distribution of the FY22 UASI grant funds, for a term of up to 33 months, with our partner jurisdictions, including, but not limited to, the County of Los Angeles and the City of Long Beach; and
- Authorize the Mayor's Office of Public Safety to use grant funding to support the management and administration of grant projects within the City of Los Angeles (City) and across the Urban Area.

This request is in accordance with Council File No. 22-0988, which authorized the Mayor's Office to apply for FY22 UASI funding on behalf of the LA/LB UA, and which instructed the City Administrative Officer (CAO) to report back on the necessary actions to accept the final award and implement the grant program.

Background

The primary purpose of the UASI program is to provide financial assistance to dense urban areas with high concentrations of people, high-visibility targets, and critical infrastructure to help those areas improve their ability to prevent, protect against, respond to, and recover from threats or acts of terrorism. This financial assistance can be used to support the purchase of homeland security equipment, as well as the costs of planning, training, exercises, limited operational costs, and grant administration. DHS awards UASI funds by using a discretionary risk-based formula and assessing the effectiveness of each applicant's proposed solutions to address these risks.

The UASI grant program is overseen by the State Administrative Agency (SAA), which is the California Governor's Office of Emergency Services (Cal OES). The grant is then administered by the Mayor's Office of Public Safety, as designated by Cal OES, on behalf of the participating local area jurisdictions that comprise the LA/LB UA.

On May 13, 2022, DHS announced a FY22 UASI allocation of \$67,182,000 to the LA/LB UA. In accordance with federal grant guidelines, the SAA is allowed to retain up to 20% of the grant award to directly support the designated Urban Area in the state. In FY22, Cal OES retained 18.5% of this award, totaling \$12,428,670. On October 24, 2022, the LA/LB UA received the formal award letter for its final allocation of \$54,753,330 (Attachment 1). There is no general fund match requirement for this grant.

Regional Funding Allocation Process

The LA/LB UA funding allocation plan was developed with the participation of nearly 150 public safety stakeholders from 27 local jurisdictions including the City of Los Angeles, the County of Los Angeles, and the City of Long Beach. The development of the FY22 UASI application and focused strategic planning was further described in the FY22 UASI application transmittal (Council File No. 22-0988).

Final review and approval of projects, priorities and funding were made by an 18-member Urban Area Working Group and an 11-member Urban Area Approval Authority (Attachment 2). Both bodies are comprised of public safety, emergency management, critical infrastructure, and public health experts and leaders from across the region. The City of Los Angeles is represented on these groups with eight members on the Working Group and four members on the Approval Authority.

Regional Homeland Security Funding Priorities

At the end of the FY22 UASI funding allocation process, numerous jurisdictions, including the City of Los Angeles, received funding to implement the following four major homeland security focus areas, known as Investment Justifications (IJ):

1. Strengthen interoperable and communications capabilities

Outcome

- Continuing the development of regional interoperable communications systems

2. Strengthen information sharing, collaboration capabilities, and law enforcement investigations

Outcomes

- Continuing to link and enhance Urban Area criminal and intelligence systems together
- Increasing analytical capability to detect and disrupt terrorist activity across linked databases and intelligence systems
- Expanding Common Operational Platform Program capabilities to enhance information gathering, sharing, and incident management
- The procurement of equipment and training designed to enhance technological capabilities to support intelligence and criminal cases for the pursuit of terror networks and individuals
- Enhancing cyber collaboration capabilities by integrating and sharing the cyber threat intelligence across agencies
- Training for the intelligence community and Terrorism Liaison Officers (TLOs) across Urban Area jurisdictions
- Funding for analysts at the Joint Regional Intelligence Center (JRIC)

3. Protection of critical infrastructure and key resources (limited to commercial airports and seaports)

Outcomes

- Enhancing transportation systems and maritime security
- Procuring equipment, technologies, training, and exercises designed to improve security at critical infrastructure and to combat threats of high consequences including CBRNE
- Resiliency (continuity of operations)
 - Integrating critical sub-systems (e.g. power, key roads, water, communications) into overall critical infrastructure security plans and operations
- Operations and maintenance of Homeland Security Grant Program acquired systems.

4. Catastrophic incident planning response and recovery

Outcomes

- Procuring equipment to enhance catastrophic incident response
- Catastrophic disaster response training & exercises

- Regional and interdisciplinary planning, training, and exercises to recover from catastrophic incidents
- Integrating regional logistics plans
- Regional volunteer planning and training
- Regional community outreach program

The final allocations resulted in the following: IJ1 (totaling \$16,188,338), IJ2 (totaling \$12,993,703), IJ3 (totaling \$12,426,977), IJ4 (totaling \$13,144,312). Five percent of the UASI award is allocated toward management and administration of the grant, totaling \$2,737,667.

Each focus area will be addressed through a package of discrete projects designed to further its goal. Although several jurisdictions were allotted funding to implement specific projects, all projects are designed to have a primarily regional, rather than local, impact.

National Priority Areas

Starting in FY 2022, each UASI recipient is required to submit an IJ for each of the five national priorities areas identified below:

- Enhancing cybersecurity
- Enhancing the protection of soft targets/crowded places
- Enhancing information and intelligence sharing and analysis, and cooperation with federal agencies including DHS
- Combating domestic violent extremism
- Enhancing community preparedness and resilience

City of Los Angeles Projects

The City of Los Angeles received \$14,486,103 for FY22 UASI projects, not including the Mayor's office allocation for grant administration. In total, four City departments received funds for FY22 UASI projects:

- Emergency Management Department: \$1,349,667
- Fire Department: \$5,157,828
- Police Department: \$7,578,608
- Cybersecurity: \$400,000

The \$14,486,103 will fund some of the following City projects:

EMERGENCY MANAGEMENT DEPARTMENT

Annual Emergency Operations Center Functional Exercise

In FY22 UASI, the Emergency Management Department (EMD) received an allocation of \$120,444 to design, produce, coordinate and execute the City of Los Angeles Emergency Operations Center's (EOC) annual functional exercise. The EOC exercise will be based on identified core capabilities and hazards in the City's Integrated

Preparedness Plan (formerly the Multi-Year Training and Exercise Plan) to conduct a Level 1 EOC Functional Exercise based around identified core capabilities and hazards.

LOS ANGELES FIRE DEPARTMENT

Hazardous Materials (HazMat) and Urban Search and Rescue (USAR) Equipment

In FY22 UASI, the Los Angeles Fire Department (LAFD) received an allocation of \$2,298,665 for HazMat and USAR Equipment. HazMat and USAR equipment are part of a regional effort that has received funding in prior UASI grant cycles. The FY22 UASI funding will sustain the existing Hazmat and USAR teams' capability of responding and conducting recovery efforts in the event of catastrophic and all hazard incidents.

Los Angeles Fire Department Grant-Funded Positions

Authority is being requested to continue Position Authority Resolution for one grant-funded Los Angeles Fire Department Battalion Chief and one grant-funded Captain-II for the Regional Training Group and one grant-funded Captain-II for the Joint Regional Intelligence Center. All are funded through the FY22 UASI grant allocation.

LOS ANGELES POLICE DEPARTMENT

LAPD Project 25 TDMA Radio System Upgrade (LMR)

In FY22 UASI, the Los Angeles Police Department (LAPD) received an allocation of \$1,000,000 to maintain their Project 25 Time-Division Multiple Access (TDMA) Radio System. In previous UASI grant awards, the City of Los Angeles worked with regional partners to enhance the Land Mobile Radio (LMR) infrastructure to provide interoperability between agencies. This collaboration effort needs to continue, and the system deployed will need to be maintained. This application for service and maintenance support is necessary for the continued use of the regional system. Providing service and maintenance for the LMR system will cover the fiscal gaps encountered via the budgeting process. Having UASI continue to support its fiduciary investment ensures connectivity of mission critical operations. The funding of service and maintenance for the system will continue to sustain interoperable capabilities and maintain a robust system prepared for emerging technology.

Personal Protective Equipment Training Unit (PPETU)

In FY22 UASI, the Los Angeles Police Department (LAPD) received an allocation of \$311,094 for their personal protective equipment training unit. The project provides CBRNE (chemical, biological, radiological, nuclear, and explosive) certifications/re-certifications for the Operational Area (OA) and greater southern California area. Also, this project provides PPE's for responding to CBRNE events such as weapons of mass destruction. The project trained over 25,000 students within the OA since its inception. Additionally, this project provides PPE's for law enforcement's response to all-hazards events. Currently there is a gap between the amount of equipment necessary to respond to a multitude of emergencies where the above-mentioned PPE's would aid in protecting the first responders from hazards. Additionally, this project will allow the respiratory protection fit testing, as required by Cal OSHA, for existing and newly hired police officers. The equipment procured within this project would be maintained in a

state of readiness to deploy when incidents arise that necessitate additional PPE's. Also, the project will allow the OA to continue to develop and sustain core capabilities to prevent, protect and respond to a CBRNE incident through certification and re-certification for potentially contaminated CBRNE environments.

Combating Domestic Violence Extremism Intelligence Analyst

LAPD is requesting a position authority for a LAPD Civilian "Crime and Intelligence Analyst I." This position will be stationed at the Joint Regional Intelligence Center. The Domestic Violent Extremism Intelligence Analyst would address issues of combating the CDVE threat in the City of LA and the surrounding region. The analyst would share intelligence and collaborate with partner agencies to build a coordination capacity across multiple levels of government. The allocated budget for this position will support salary, overtime, and fringe benefits.

LOS ANGELES CYBERSECURITY (ITA)

MS-ISAC Netflow Monitoring and Analysis Service

In FY22 UASI, the Los Angeles City Cybersecurity MS-ISAC project received an allocation of \$200,000. This project provides 24 x 7 real-time network flow monitoring, security threat analysis, notification and response services to City departments. MS-ISAC netflow monitoring and analysis services collect, correlate and analyze computer network security information across City departments. It provides 24 x 7 real-time security event analysis and notifications and technical assistance in responding to and mitigating cyber threats that could disrupt or damage City's critical infrastructure and services.

Fiscal Year 2022 UASI Jurisdictional Resource Allocations

The following outline provides a summary of the distribution of the FY22 UASI grant funds by jurisdiction. As with previous UASI grants, the City will execute contracts with each of these recipients to formally distribute the grant funds and memorialize approved expenditure plans.

For nearly every project and program funded under this grant, the ultimate success and viability of the overall effort depends upon several jurisdictions, including the City of Los Angeles, receiving funds and applying them toward the four common goals described as IJs. The Cal OES approved FY22 Budget (Attachment 3) details the specific projects, funding amounts, and recipient partner jurisdictions associated with implementing these four focus areas. Attachment 4 is a subset of the Cal OES approved FY22 Budget showing only City of Los Angeles line items.

UASI Management and Administration

DHS guidelines allow up to 5% of the total award – \$2,737,667¹ in FY22 UASI – to be used in support of the management and administration (M&A) of grant-funded programs. The Mayor's Office is the designated administrator and fiscal agent for UASI grant administration on behalf of the Urban Area, and is responsible for fiscal and program management for all of the UASI grant-funded projects allocated to these entities.

Management and administration costs fall into three categories:

Salaries and Benefits: \$2,347,667

The majority of staff costs are for salary and fringe benefits for the Mayor's Office UASI grant, contract and fiscal management teams (Attachment 5). Grant specialist duties and responsibilities include all grant monitoring and reporting, grant guideline compliance, coordination and communication with DHS, Cal OES, and grant sub-recipients, and general project and program management. Fiscal specialists ensure the timely, accurate, and appropriate execution of all grant expenditures, reimbursements, and fund draw-downs, as well as preparing and maintaining all necessary documentation to ensure compliance with accepted auditing standards. The majority of staff costs will be incurred in the next and subsequent fiscal years.

To improve our ability to promptly implement projects and expend funds, the Mayor's Office will use M&A funds to support the salary of a City Attorney, whose responsibilities include working with the contract team in drafting, approving, and executing all contracts associated with this grant. For FY22-23 the City Attorney's salary will be supported by FY23 and FY24 UASI; therefore, the Mayor's Office is not seeking appropriations to support the City Attorney's salary during FY22-23 using FY22 UASI funding.

Additionally, the City of Long Beach, as a core city partner of the Los Angeles/Long Beach UASI, is receiving a portion of the M&A allocation (\$90,000) to support its personnel costs managing UASI grant-funded projects.

Administrative Expenses: \$200,000

The projected amount for administrative expenses to be used within the grant performance period includes purchasing office supplies for approximately \$100,000, and travel for approximately \$100,000. These travel expenses will support both Mayor's staff and various Urban Area representatives traveling to Cal OES and DHS sponsored conferences and planning workshops. Examples include the annual National Homeland Security Conference, Cal OES sponsored meetings and workshops, and other applicable trainings.

¹ On page 6 of this report in the Jurisdictional Resource Allocation Chart, M&A for the City of Los Angeles is reported as \$2,647,667. The additional \$90,000 in M&A is reflected on the chart in the City of Long Beach's FY22 UASI Allocation. This amounts to a total M&A allocation of \$2,737,667, or 5% of the grant.

Contract Services: \$100,000

Temporary Employment Agency and other vendors (\$100,000)

Authority is requested to contract with a temporary employment agency or other vendors to assist Mayor's Office with grant administrative duties. This may include: assisting grant, contract or fiscal specialists in ensuring the timely, accurate, and appropriate execution of all grant expenditures, reimbursements, and fund draw-downs, as well as preparing and maintaining all necessary documentation to ensure compliance with accepted grant and city standards.

Program Management

The preceding information is provided largely for context, illustrating the complexity of managing this large program, rather than for council action. As the majority of management and administrative salary costs will occur in FY22-23 and subsequent fiscal years, future transmittals will detail the necessary salary account transfers related to these activities.

Fiscal Year 2022 UASI Grant Cash Flow

The California Governor's Office of Emergency Services allows the City, as fiscal agent for the Urban Area, to request funds up to 120 days prior to an eligible expenditure.

Fiscal Year 2022 UASI Performance Period

The FY22 UASI grant has an overall performance period of September 1, 2022 to May 31, 2025. Therefore, the acceptance of the grant, the recommendation to adopt the FY22 UASI budget and the authorization to enter into certain contracts, is accompanied with the request to include retroactive approval of grant-funded activities that occurred with the grant performance period but prior to the Council adoption of the recommendations set forth in this report.

In addition, in consideration of the large number of programs to be managed and the length and complexity of the City's stringent procurement policies, the Mayor's Office, working with impacted General Managers and the City Attorney's Office, requests authority to:

- Prepare and release Requests for Proposals (RFPs), or perform other procurement processes as required, for FY22 UASI grant projects;
- Evaluate responses from contractors, as determined by the relevant procurement process; and
- Negotiate and execute contracts subject to the approval of the City Attorney.

Attachment 6 lists those budgeted projects for which service contracts are anticipated. In the absence of the specific procurement authorities listed above, the City would place itself at substantial risk of failing to execute all FY22 UASI grant-funded homeland security projects in a timely manner.

It is therefore requested that the City Council:

1. **Authorize** the Mayor, or his designee, to:
 - a. **Accept** on behalf of the City and the Los Angeles/Long Beach Urban Area, the Fiscal Year 2022 Urban Areas Security Initiative Grant in the amount of \$54,753,330 from the California Governor's Office of Emergency Services, for a performance period of September 1, 2022 to May 31, 2025;
 - b. **Submit** to the grantor on behalf of the City and the Los Angeles/Long Beach Urban Area, requests for drawdown of funds for payment or reimbursements of City and partner jurisdiction funds expended for approved grant purposes;
 - c. **Execute** subrecipient contracts, subject to the approval of the City Attorney as to form, for the distribution of the FY22 UASI grant funds, for a term of up to 33 months within the applicable performance period with the Los Angeles/Long Beach Urban Area partner jurisdictions including: Alhambra, Beverly Hills, Burbank, Culver City, El Segundo, Glendale, Hawthorne, Inglewood, Long Beach, Monterey Park, Pasadena, Santa Fe, Santa Monica, South Pasadena, Torrance, and County of Los Angeles consistent with the approved grant budgets and in accordance with the Performance Agreement attached to this transmittal (Attachment 7);

 - e. With the assistance of General Managers of affected City Departments, to release Requests for Proposals, evaluate proposals, and negotiate contracts for the purchase of approved equipment, training, exercise, and planning items, including consulting services, as detailed in the attached FY22 UASI budget;
 - f. **Execute** on behalf of the City, the contracts referenced in Attachment 6 for a term of up to 33 months within the applicable performance period, subject to the approval of the City Attorney as to form;
 - g. **Negotiate** and execute a contract with a vendor to assist the Mayor's Office grant, contract or fiscal team, for a term up to 24 months, within the grant performance period, in an amount not to exceed \$100,000, subject to the approval of the City Attorney as to form; and

h. **Receive**, deposit into, and disburse from a new FY22 UASI Homeland Security Grant Fund, the grant funds from the FY22 UASI grant award.

2. **Authorize** Position Authority Resolution for two grant-funded sworn positions for the Los Angeles Fire Department for Fiscal Year 22-23, one for the Joint Regional Intelligence Center and one for the Regional Training Group:

EMD	<p>Update the Faith-Based Community Organization Webpage (Prep4Faith.org) and Materials: The City of Los Angeles Emergency Management Department (EMD) will work through the City procurement process to hire a contractor and subject matter expert who will work to update materials and the faith-based community organization webpage "Prep4Faith.org".</p> <p>The Prep4Faith webpage provides free resources to faith-based community organizations. However, it is not continuously monitored or updated, and therefore, not being utilized to its greatest potential.</p> <p>The City of Los Angeles has established relationships with many faith-based community organizations throughout the jurisdiction. In order to maintain partnerships during disasters, EMD maintains a quarterly faith-based organization meeting with over 100 participants from local churches and community organizations. Although the current webpage provides helpful resources for building community resilience, EMD may reach more community organizations by updating the contents on the website.</p> <p>EMD's goal is to enhance the overall self-resilience of City of Los Angeles faith-based organizations through the current web-based information hub (prep4faith.org).</p>	\$100,000	24 months

This law requires the legislative body of a city or county to adopt a comprehensive, long-term general plan that includes various elements, such as a safety element for the protection of the community from unreasonable risks associated with the effects of various geologic hazards.</p>	\$150,000	24 months

Therefore, this project will help to create materials dedicated to public housing units including pamphlets, lesson plans, or instructional videos as well as specialized training unique to the needs of the housing projects.</p> <p>By developing materials for public housing residents, EMD will build self-resilience within some of the city's most vulnerable populations.</p>	\$200,000	24 months

- B. Subrecipient and the City have previously completed a mutually approved Budget/Expenditure Plan as incorporated in the Financial Management Forms Workbook (the "Workbook"), which is pending approval by CalOES (the "Budget") and is attached hereto as **Exhibit C**. Upon approval by CalOES, such Budget shall be the effective Budget for this Agreement. The Workbook contains detailed listings of items and projects and the amount of Subaward funds allocated for such items and projects. The City shall provide Subrecipient with an electronic Workbook of Subrecipient's projects. Subrecipient shall use the Subaward funds strictly in accordance with the Workbook, and any expenditures not so made shall be deemed disallowed under this Subaward.

Any request by Subrecipient to modify the Workbook must be made in writing and accompanied by a completed Modification Request Form

(attached hereto as **Exhibit D**), all required supporting documentation and a revised Workbook showing such modification. Workbook modification requests must be submitted prior to deadlines set by the City. Inaccurate or incomplete requests shall be returned to the Subrecipient for revision. Subrecipient shall not expend any funds on modified Workbook items until such modification is approved by the City and CalOES.

- G. This Subaward is not a "fixed amount award" as such term is defined in 2 CFR §200.45. If Subrecipient requests advance payment of Subaward funds, Subrecipient shall comply with, and provide evidence to the City of compliance with, the criteria and obligations related to the use of advance payments as set forth in 2 CFR §200.305 as well as satisfying any other City and CalOES requirements for advance payments.

Such documentation shall be prepared at the sole expense and responsibility of Subrecipient, and the City and the Subaward will not reimburse the Subrecipient for any costs incurred for such preparation. The City reserves the right to request additional supporting documentation to substantiate costs incurred at any time. Inaccurate and/or incomplete Reimbursement Requests shall be returned to Subrecipient for revision.

The City will notify Subrecipient, in writing, when unexpended Subaward funds may be re-directed.

- H. Subrecipient acknowledges that the City makes no commitment to disburse Subaward funds beyond the terms set forth herein and that funding for all periods during the Subaward Term is subject to the continuing availability to the City of federal funds for this Subaward from CalOES and the Federal awarding agency. This Agreement may be terminated immediately upon written notice to Subrecipient of any loss or reduction of Subaward funds.
