Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 22-1088

Agenda Date:

Item Number:

Summary: The Board of the Studio City Neighborhood Council (SCNC) supports Council File 22-1088: Title, Automated External Defibrillators (AEDs) / City Parks and Recreation Facilities / Location and Utilization / Maintenance and Infrastructure Costs. More than 356,000 Americans experience cardiac arrests outside of a hospital every year, and less than 10 percent survive. It is estimated that up to 30 percent of victims could survive if they had access to an immediate medical response, such as cardiopulmonary resuscitation (CPR) and defibrillation. In many public buildings, automated external defibrillators (AEDs) are required. Unfortunately, there are no requirements that AEDs be made available at public parks. The City of Los Angeles should take the lead and rectify this void. It therefore makes sense to have the Department of Recreation and Parks (RAP) report back to the City Council on the number and location of AEDs at RAP facilities, a record of utilization of AEDS, a plan for implementing AEDs at every RAP facility in the City, and costs associated with the plan.
