Item Number:

Summary:

Los Angeles faces a water crisis as the density increases, the drought continues, and traditional water sources are withdrawn due to their overuse. The City needs to find sensible solutions to safely increase the water supply. Gray water should definitely be in the City's bag of tricks. What better way to increase its use than with new development projects?

The Palms Neighborhood Council supports this motion's report back requests and we look forward to see where they take us.
