Summary:

On February 8, 2023, your Committee considered a Motion (Soto-Martinez – Blumenfield) relative to multimodal infrastructure in CD 13. According to the Motion, CD 13 is among the most densely populated and transit-dependent districts in Los Angeles, yet our streets are inhospitable to people who walk, bike, and take transit. Essential workers face unreliable or unsafe commute options, often choosing between packed buses that are stuck in traffic or streets without a single foot of protected bike lane to ride in. While making our transportation system equitable will require a concerted effort to invest in projects and programs to address the diverse needs of our communities, CD 13 is in immediate need of basic multimodal infrastructure to make our streets safe and mobile today. After consideration and having provided an opportunity for public comment, the Committee moved to recommend approval of the Motion. This matter is now submitted to Council for its consideration.

Respectfully Submitted,  
Transportation Committee
