

MOTION

On January 11, 2023 the City was notified that rainwater flowing from the slope supporting 12945 Mulholland Drive created an erosion gully that impacted the lateral support of the roadway. The City temporarily closed this segment of Mulholland Drive, however, an immediate permanent repair is required.

The City Engineer has issued a Task Order Solicitation to the Emergency On-Call List and expects to receive bids and issue a Notice to Proceed this week to begin the repair project. The estimated cost of the repair is \$500,000 and is estimated to take four weeks to complete. Approval by the City Council and Mayor is required to establish a new capital project and to appropriate funds for the repair.

I THEREFORE MOVE that Council determine, as provided in Government Code Section 54954.2(b)(2), and pursuant to Rule 23 of the Rules of the City Council, that there is a need to take immediate action on this matter and that the need for action came to the attention of the City subsequent to the posting of the agenda for today’s Council meeting.

I FURTHER MOVE that the Council, subject to approval of the Mayor, establish a new capital project entitled “Mulholland Drive (12945) Storm Response,” and within Measure M Local Return Special Fund No. 59C-94 appropriate \$500,000 from Available Cash Balance to a new account entitled “Mulholland Drive (12945) Storm Response.”

I FURTHER MOVE that the City Administrative Officer be authorized to make any technical corrections or clarifications to the above fund transfer instructions in order to effectuate the intent of this Motion, including any corrections and changes to fund or account numbers.
