Summary: Support of CF #23-0167 which is a motion to report back on preserving mature street trees during the sidewalk repairs. Woodland Hills is regularly one of, if not the, hottest places in the San Fernando Valley and we lose mature trees regularly due to our development projects, only to have them "replaced" with saplings, multiplying the heat effects. The City of Los Angeles's Bureau of Street Services needs to ensure it does all that it can to keep our tree canopy in place, so as not largely make the heat effects even worse.
