

## MOTION

The Los Angeles Neighborhood Initiative (LANI) is developing a park project on behalf of the City at the intersection of Western Avenue and Gage Avenue. LANI has applied for an alley vacation for the project on behalf of the City and the Council has initiated vacation proceedings and instructed the Bureau of Engineering (BOE) to investigate and report on the feasibility of the vacation request (VAC- E1401436) (C.F. 23-0693).

Under the standard street vacation process, BOE would require the applicant to dedicate portions of the property to the public right-of-way to widen sidewalks and ensure any buildings are set off from the street. However, this project involves the development of a park and the existing sidewalks are already ADA-compliant. In order to maximize this space's use for the proposed public park, BOE should be instructed to waive public right-of-way dedication requirements.

I THEREFORE MOVE that the Bureau of Engineering be instructed to waive the public right-of-way dedication requirements to allow for more space to build the proposed public park project at Western Avenue and Gage Avenue in Council District 8.
