Re: 11905 Wilshire Boulevard Project

Dear Ms. Adrianna Gjonaj,

In response to your request for information, please find a ***LAUSD Schools Enrollments and Capacities Report*** for the schools and programs serving the 11905 Wilshire Boulevard Project, 11903 to 11913 West Wilshire Boulevard, Los Angeles, CA 90025. The project is planned to contain 81 residential units: 23 Studio, 33 1-Bedroom, 5 1-Bedroom + Den and 20 2-Bedroom, including retail/commercial use. Nine units would be reserved at the “Very Low Income” rate. At this time reporting is based on individual project address, without reporting on the combined impacts of other project addresses served by the same schools. This report contains the most recent data available on operating capacities and enrollments, and is designed to address any questions pertaining to overcrowding and factors related to school capacity. All schools operate on single track calendar.

Please note that no new school construction is planned and the data in this report already take into account: portable classrooms on site, additions being built onto existing schools, student permits and transfers, programs serving choice areas, and any other operational activities or educational programming affecting the operating capacities and enrollments among LAUSD schools.

Additional information on LAUSD’s Capital Improvement programs can be found on the Facilities Services Division main webpage at <http://www.laschools.org/new-site/>. Listings of residential schools and other programs serving the project can be found using LAUSD’s Residential School Finder at <http://rsi.lausd.net/ResidentSchoolIdentifier/>.

The Developer Fee Justification Study with student generation rates can be found online at <https://achieve.lausd.net/domain/921>.
