Comments for Public Posting: The havoc that will be wreaked on the LA animal shelter system because local city government has a budget issue? Try taking a cut in your exorbitant city employee salaries instead of taking it out on helpless animals. Hire better cops that don't get sued and cost taxpayers millions. If the city of LA was a privatized corporation it would disappear faster than the mayor in a natural disaster.

Comments for Public Posting: We cannot allow mayor bass to close 3 shelters and cut budgeting for the animal shelters, she promised us that she would protect animals and she's doing the complete opposite, our animals need to be protected at all cost no matter what. We are the voice for those that do not have a voice. What mayor bass is doing is animal abuse, animal shelters need to funding, cutting budgeting and closing shelters is not the solution. Our beloved animals did nothing to deserve this, we as a city and humans should do better please we cannot fail them!

Comments for Public Posting: Our police already have enough helicopters (if you're able to use one to transport chili across the city you have too many). We need funded public transportation, bike lanes, domestic violence shelters, and to protect our undocumented neighbors. Safety is more than a man with a gun, it's a strong community held up with strong infrastructure.
