**Comments for Public Posting:** Defund cops not COMPAS! Mayor Bass defunding day laborer centers makes workers contributions to the city of LA invisible.

**Comments for Public Posting:** The proposed budget cut to LA ANIMAL SERVICES will have devastating consequences. Closing ANY shelters and eliminating ANY amount of staff will put thousands of already suffering animals at risk.

**Comments for Public Posting:** Barnsdale Park is a treasure to our city. I have taken art classes there both as a child and an adult. It helps foster a love of learning especially accessible to those that have limited means or the ability to resource a community of like minded individuals in a city that desperately needs connection. We need more green space for kids playing at festivals, Shakespeare in the park and art classes mid week. I met people from all walks of life and socioeconomic stations. It is critical we keep things like this so we can see the humanity in eachother.
