**Comments for Public Posting:** Please consider allowing credits or points to the civil service exams for employees that reside and live in the City of Los Angeles. This is important as it ensures employees are invested in LA and the cost of living and working are increasing (ex. trash collection fees). Keep allowing employees to promote and quit allowing the CAO to circumvent the civil service hiring/promotion process under the guise of PCH. Thanks Jacob Brothers CD 8 Resident

**Comments for Public Posting:** I want to slower street designs in neighborhoods. I got denied speed humps because there wasn't enough "traffic" on the street even though I see numerous streets just north of us between Jefferson and Adams that have the humps and roundabouts and medians to slow down traffic on residential streets. Why isn't our district getting these?! Second, I'd like to see protected bike lanes (with concrete and not plastic) to safely bike with my family. Everyday I see cars racing and running stops signs. We don't want to spend our life in a car in traffic so give us safe alternatives. Please hire whoever has done all the great bike infrastructure in Santa Monica.
