**Comments for Public Posting:** Is it FINALLY time to cut the police budget? If the council is talking about 20% "across the board", that should INCLUDE the department that is most responsible for all of our outrageous liability payouts. Further, any payouts for police misconduct in the future should come out of THEIR budget, not the general operating budget.

**Comments for Public Posting:** CD 1 has taken important steps to care for the unhoused in our district, and to clean and maintain public properties. As the City faces a daunting budget shortfall, it is critical that that progress is not lost. Please place a priority on continued care for the people and commons of our district. Thank you.

**Comments for Public Posting:** What about the parks that were planned for our community. To date there are fences surrounding the areas, like the one on the corner of Crenshaw and 54th St. What happened to the funding for that project?
